Antonio Ritter
NOVUM Hospitality
An der Alster 63, 20099 Hamburg

Dear Mr. Ritter,

I am delighted to recommend Yevhenii Domahaiev for an internship in your company. He is a graduate of our IT school and specializes in Java Development. At our school, he has demonstrated excellent programming skills and proven himself a talented and dedicated developer.

The student possesses in-depth knowledge in the field of Java and a wide range of skills required for the development and support of web applications. He has successfully mastered the fundamentals of object-oriented programming, including the principles of encapsulation, inheritance, and polymorphism. Additionally, he is proficient in working with popular Java libraries and frameworks, such as:

- Java SE: He is well-versed in the core components of Java SE, including collections, I/O streams, file handling, and exceptions. He also has familiarity with basic concepts of multithreading.

- Spring / Spring Boot: He has experience working with the Spring framework and Spring Boot, which are among the most popular frameworks for Java application development. He is familiar with key concepts of Spring, such as Inversion of Control (IoC), Dependency Injection (DI), as well as developing web applications using Spring MVC. He is also acquainted with Spring Data JPA for database operations and Spring Security for application security.

- RESTful applications: He possesses skills in developing RESTful applications using Java and the Spring framework (either Spring MVC or Spring Boot). He understands the principles of designing and implementing RESTful APIs, including route definition, handling HTTP methods, and managing state.

In addition to the aforementioned skills, the student also has experience working with databases, including SQL and NoSQL. He is acquainted with the fundamentals of database design and can proficiently perform CRUD operations (Create, Read, Update, Delete).

He demonstrates excellent analytical abilities and has a knack for understanding complex tasks. Moreover, he possesses strong teamwork skills and exhibits a high level of responsibility

in accomplishing assigned tasks. Throughout his studies, he actively participated in various projects, showcasing his ability to collaborate effectively with colleagues and achieve set goals.

I would also like to highlight his exceptional communication skills. He can clearly and concisely explain intricate programming concepts and easily interact with other team members. These skills enable him to work effectively in a team environment and succeed in collaborative projects.

Overall, I am confident that the graduate student from our IT school will be an excellent asset to your company. His technical knowledge, professional skills, and commitment to achieving results make him an ideal candidate for an internship in your organization.

If you have any further questions or require additional information, please feel free to contact me. I highly recommend him and believe that he will be a valuable addition to your team.

Best regards,

Stanislav Perminov
